

Below is the **complete master sitemap + URL architecture + screen-design specification** I recommend developers use as the canonical routing document for the Autonomous Omnichannel Revenue & Marketing SaaS.

The architecture supports four deployment modes from the same backend:

Standalone SaaS → SFW Add-on → Third-party CRM Add-on → White-label/Reseller SaaS

A. MASTER APPLICATION STRUCTURE

PUBLIC WEBSITE

AUTHENTICATION

COMPANY ONBOARDING

CHANNEL CONNECTION

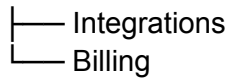

AI BUSINESS SETUP

TENANT APPLICATION

- AI Command Center
- CRM
- Omnichannel Inbox
- Campaigns
- WhatsApp
- RCS
- SMS
- Email
- AI Chatbots
- AI Agents
- Automations
- Knowledge Base
- Sales Pipeline
- Payments
- Targets
- Marketing Autopilot
- Analytics
- Team

RESELLER PORTAL

CLIENT TENANTS

PLATFORM SUPER ADMIN

ALL TENANTS / PROVIDERS / BILLING / HEALTH

SFW EMBEDDED ADD-ON

SAME REVENUE-AI BACKEND

B. URL CONVENTION

Use predictable REST-style URLs.

/app/...	Tenant application
/app/settings/...	Tenant settings
/app/integrations/...	Integrations
/app/developer/...	APIs/webhooks

/reseller/...	Reseller control panel
---------------	------------------------

/platform/...	Platform super-admin
---------------	----------------------

/addons/revenue-ai/...	Embedded SFW/CRM mode
------------------------	-----------------------

/auth/...	Authentication
-----------	----------------

/onboarding/...	SaaS onboarding
-----------------	-----------------

Dynamic entities:

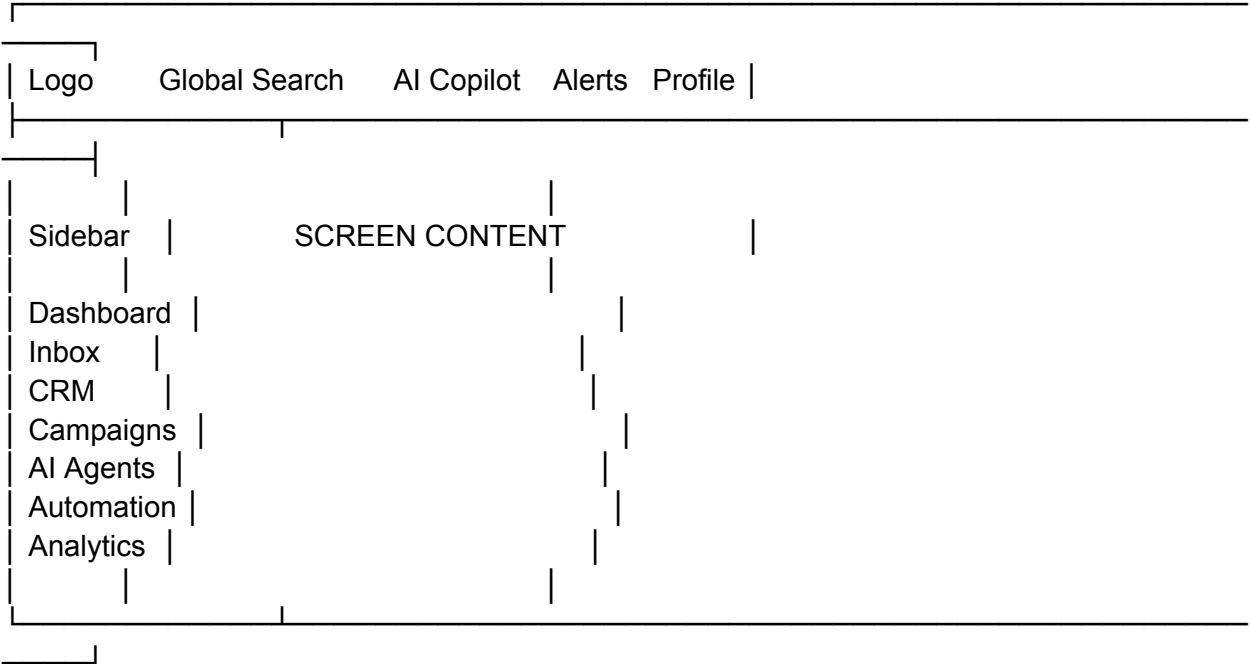

/app/contacts/:contactId
/app/campaigns/:campaignId
/app/chatbots/:chatbotId
/app/automations/:workflowId

Never expose sequential database IDs externally.

Use UUID/ULID.

C. GLOBAL SCREEN DESIGN SYSTEM

Main Desktop Layout

Recommended:

- 240–260 px sidebar
- 64 px top navigation
- 12-column responsive content grid
- global AI Copilot available everywhere
- command palette
- universal search
- notification center
- tenant/workspace selector
- global Create button

D. PUBLIC WEBSITE

Screen	URL	Screen Design / Purpose
Homepage	/	Hero, AI revenue demo, channels, automation, ROI, integrations, CTA
Product Overview	/product	Complete platform explanation
AI Sales	/ai-sales	Qualification → negotiation → closing
WhatsApp Automation	/whatsapp-automation	WhatsApp campaigns/chatbot features
AI Chatbot	/ai-chatbot	No-code chatbot builder
Marketing Automation	/marketing-automation	Autonomous campaign creation
Omnichannel	/omnichannel	WhatsApp + RCS + SMS + Email
CRM Integration	/crm-integration	SFW/Zoho/HubSpot/custom CRM
RCS Messaging	/rcs	Rich messaging
Bulk SMS	/bulk-sms	SMS campaigns/DLT
SFW Add-on	/sfw-integration	Native SFW revenue automation
Developers	/developers	API introduction
Integrations	/integrations	Integration directory
Pricing	/pricing	Plans + usage calculator
Enterprise	/enterprise	SSO, white-label, custom deployment
Reseller	/resellers	Reseller/white-label proposition
Industries	/industries	Industry automation templates
Security	/security	Security architecture

Contact Sales	/contact-sales	Lead capture
Book Demo	/book-demo	Demo scheduling
Login	/login	Login CTA
Signup	/signup	Trial/account creation
Privacy	/privacy	Privacy policy
Terms	/terms	Terms
WhatsApp Policy	/messaging-policy	Messaging/consent policy
Status	/status	Platform status

E. AUTHENTICATION

Screen	URL
Login	/auth/login
Signup	/auth/register
Verify Email	/auth/verify-email
OTP Verification	/auth/verify-otp
Forgot Password	/auth/forgot-password
Reset Password	/auth/reset-password
Invite Acceptance	/auth/invite/:token
SSO Login	/auth/sso

SSO Callback	/auth/sso/callback
MFA Setup	/auth/mfa/setup
MFA Verify	/auth/mfa/verify
Recovery Codes	/auth/mfa/recovery

Design should remain extremely simple: company branding, login card, security assurance, support link.

F. CUSTOMER ONBOARDING

This is one of the most important conversion experiences.

Onboarding Home

</onboarding>

Show:

Welcome 🖐️

Let's put your sales & marketing on autopilot.

Estimated setup:
5 simple steps

Progress:

Company
↓
Products
↓
WhatsApp

AI
↓

Launch

Complete onboarding routes

Screen	URL
Welcome	/onboarding/welcome
Company Setup	/onboarding/company
Business Type	/onboarding/industry
Business Goals	/onboarding/goals
Website Import	/onboarding/website
Product/Service Import	/onboarding/products
Upload Documents	/onboarding/documents
Brand Setup	/onboarding/branding
Languages	/onboarding/languages
Sales Process	/onboarding/sales-process
Target Audience	/onboarding/audience
Connect WhatsApp	/onboarding/whatsapp
WhatsApp Embedded Signup	/onboarding/whatsapp/connect
WhatsApp Verification	/onboarding/whatsapp/verify
Connect RCS	/onboarding/rcs
Connect SMS	/onboarding/sms
DLT Setup	/onboarding/sms/dlt
Connect CRM	/onboarding/crm

Payment Setup	/onboarding/payment
AI Setup	/onboarding/ai
Generate First Chatbot	/onboarding/chatbot
Generate First Templates	/onboarding/templates
Generate First Campaign	/onboarding/campaign
Review Setup	/onboarding/review
Launch	/onboarding/launch
Setup Complete	/onboarding/success

G. AI COMMAND CENTER

Main Dashboard

</app/dashboard>

This should become the most important screen.

Top:

Revenue Target	Achieved	Forecast	Target Gap
₹10L	₹7.4L	₹10.8L	₹2.6L

Next:

Hot Leads
Payment Pending
Demos Today
AI Conversations
Active Campaigns
Qualified Leads

Then:

AI Recommended Actions

🔥 14 hot opportunities need attention

₹82,500 payments recoverable

7 demos need follow-up

Dental campaign outperforming average by 38%

CTA:

Execute Recommended Actions

Routes:

Screen	URL
Command Center	/app/dashboard
Executive Dashboard	/app/dashboard/executive
Sales Dashboard	/app/dashboard/sales
Marketing Dashboard	/app/dashboard/marketing
Campaign Dashboard	/app/dashboard/campaigns
AI Dashboard	/app/dashboard/ai
Revenue Dashboard	/app/dashboard/revenue
Live Activity	/app/dashboard/live

H. AI COPILOT

Persistent right-side assistant.

Routes:

Screen	URL
AI Copilot	/app/copilot
Copilot History	/app/copilot/history
AI Recommendations	/app/copilot/recommendations
Actions Waiting Approval	/app/copilot/approvals

User can type:

Generate campaign for inactive dental leads.

Or:

Why is revenue below target?

Or:

Follow up all payment-pending customers.

I. OMNICHANNEL INBOX

Main Inbox

</app/inbox>

Three-column design:

CONVERSATIONS	CHAT	CONTACT
John Dental	Customer messages	Score 92
ABC Realty	AI/human replies	Hot
XYZ Salon	₹20k deal	
	Next Action	

Routes:

Screen	URL
Inbox	/app/inbox
All Conversations	/app/inbox/all
WhatsApp	/app/inbox/whatsapp
RCS	/app/inbox/rcs
SMS	/app/inbox/sms
Email	/app/inbox/email
AI Handling	/app/inbox/ai
Human Handling	/app/inbox/human
Unassigned	/app/inbox/unassigned
Hot Leads	/app/inbox/hot
Follow-up Required	/app/inbox/follow-up
Payment Pending	/app/inbox/payment-pending
Closed	/app/inbox/closed
Conversation	/app/inbox/:conversationId

Conversation toolbar:

AI ON/OFF
 Take Over
 Assign
 Call
 Schedule
 Quotation
 Payment Link
 Notes
 More

J. CONTACT CRM

Screen	URL
Contacts	/app/contacts
Add Contact	/app/contacts/create
Import Contacts	/app/contacts/import
Import Mapping	/app/contacts/import/map
Import Validation	/app/contacts/import/validate
Import Results	/app/contacts/import/results
Contact Details	/app/contacts/:contactId
Edit Contact	/app/contacts/:contactId/edit
Contact Timeline	/app/contacts/:contactId/timeline
Conversations	/app/contacts/:contactId/conversations
Campaign History	/app/contacts/:contactId/campaigns
Activities	/app/contacts/:contactId/activities
Consent	/app/contacts/:contactId/consent
Deals	/app/contacts/:contactId/deals
Payments	/app/contacts/:contactId/payments
Tags	/app/contacts/tags
Suppression List	/app/contacts/suppression

DND	/app/contacts/dnd
Duplicate Manager	/app/contacts/duplicates

K. COMPANIES / ACCOUNTS

B2B customers need Account + Contact separation.

Screen	URL
Companies	/app/companies
Add Company	/app/companies/create
Company Details	/app/companies/:companyId
Contacts	/app/companies/:companyId/contacts
Deals	/app/companies/:companyId/deals
Conversations	/app/companies/:companyId/conversations
Activities	/app/companies/:companyId/activities
Revenue	/app/companies/:companyId/revenue

L. LEAD MANAGEMENT

Screen	URL
All Leads	/app/leads
New Leads	/app/leads/new

Assigned	/app/leads/assigned
Unassigned	/app/leads/unassigned
Hot Leads	/app/leads/hot
Warm Leads	/app/leads/warm
Cold Leads	/app/leads/cold
Qualified	/app/leads/qualified
Lost Leads	/app/leads/lost
Reactivation	/app/leads/reactivation
Lead Details	/app/leads/:leadId
AI Score	/app/leads/:leadId/score
Lead Timeline	/app/leads/:leadId/timeline
Lead Assignment	/app/leads/:leadId/assignment
Bulk Assignment	/app/leads/bulk-assign

M. AUDIENCE BUILDER

Audience Builder

</app/audiences/create>

Visual filter builder:

Industry = Dentist
AND
City = Mumbai
AND

Lead Score > 70
AND
Consent = WhatsApp Marketing
AND
Last Contact > 14 Days

Preview:

8,421 contacts match

Routes:

Screen	URL
Audiences	/app/audiences
Create Audience	/app/audiences/create
Saved Segments	/app/audiences/segments
AI Segments	/app/audiences/ai-segments
Audience Details	/app/audiences/:audienceId
Audience Preview	/app/audiences/:audienceId/preview
Export	/app/audiences/:audienceId/export

N. CAMPAIGN MANAGEMENT

Campaign dashboard

</app/campaigns>

Tabs:

All
Draft
Scheduled
Running

Paused
Completed
Failed

Routes:

Screen	URL
Campaign Dashboard	/app/campaigns
Create Campaign	/app/campaigns/create
AI Campaign Wizard	/app/campaigns/create/ai
Objective	/app/campaigns/create/objective
Audience	/app/campaigns/create/audience
Channel	/app/campaigns/create/channel
Content	/app/campaigns/create/content
Template	/app/campaigns/create/template
Schedule	/app/campaigns/create/schedule
Budget	/app/campaigns/create/budget
Review	/app/campaigns/create/review
Campaign Details	/app/campaigns/:campaignId
Live Monitor	/app/campaigns/:campaignId/live
Audience	/app/campaigns/:campaignId/audience
Messages	/app/campaigns/:campaignId/messages
Replies	/app/campaigns/:campaignId/replies

Conversions	<code>/app/campaigns/:campaignId/conversions</code>
Revenue	<code>/app/campaigns/:campaignId/revenue</code>
A/B Test	<code>/app/campaigns/:campaignId/experiments</code>
AI Optimization	<code>/app/campaigns/:campaignId/optimization</code>
Errors	<code>/app/campaigns/:campaignId/errors</code>
Duplicate Campaign	<code>/app/campaigns/:campaignId/duplicate</code>

O. AI CAMPAIGN CREATOR

This is a major differentiator.

`/app/marketing-autopilot/create`

User enters:

Generate 100 demos this month from dentists in Mumbai.

AI creates:

Audience
+
Campaign objective
+
Offer
+
WhatsApp templates
+
RCS variation
+
SMS fallback

- + Landing page
- + Follow-up sequence
- + Target model
- + Budget recommendation

Routes:

Screen	URL
Marketing Autopilot	/app/marketing-autopilot
New Goal	/app/marketing-autopilot/create
AI Strategy	/app/marketing-autopilot/strategy
AI Calendar	/app/marketing-autopilot/calendar
Content Plan	/app/marketing-autopilot/content
Offers	/app/marketing-autopilot/offers
Audience Strategy	/app/marketing-autopilot/audience
Channel Strategy	/app/marketing-autopilot/channels
Budget Recommendation	/app/marketing-autopilot/budget
Launch Plan	/app/marketing-autopilot/launch
Optimization	/app/marketing-autopilot/optimization

P. WHATSAPP

Screen	URL
WhatsApp Dashboard	/app/whatsapp
Accounts	/app/whatsapp/accounts
Add WhatsApp	/app/whatsapp/connect
Embedded Signup	/app/whatsapp/connect/meta
Phone Numbers	/app/whatsapp/numbers
Number Details	/app/whatsapp/numbers/:numberId
Number Health	/app/whatsapp/numbers/:numberId/health
Templates	/app/whatsapp/templates
Template Create	/app/whatsapp/templates/create
Template Details	/app/whatsapp/templates/:templateId
Template Submission	/app/whatsapp/templates/:templateId/submit
Template Analytics	/app/whatsapp/templates/:templateId/analytics
WhatsApp Campaigns	/app/whatsapp/campaigns
Webhook Logs	/app/whatsapp/webhooks
Delivery Logs	/app/whatsapp/delivery
Quality Monitor	/app/whatsapp/quality
Usage	/app/whatsapp/usage

Q. AI META TEMPLATE STUDIO

Main screen

/app/templates/ai-studio

User enters:

Goal:
Book demo

Audience:
Dental clinics

Offer:
Free Google visibility audit

AI produces:

Version A
Version B
Version C
Version D

Each receives:

Clarity 94
Conversion 91
Policy Risk Low
Spam Risk Low
CTA Quality 96

Routes:

Screen	URL
Template Studio	/app/templates/ai-studio
AI Generate	/app/templates/ai-studio/generate
Policy Checker	/app/templates/policy-checker

Template Library	/app/templates/library
Approved	/app/templates/approved
Pending	/app/templates/pending
Rejected	/app/templates/rejected
Rejection Fix	/app/templates/:templateId/fix
Template Experiments	/app/templates/experiments

R. AI CHATBOT BUILDER

This should be made easier than traditional chatbot software.

Chatbot Home

</app/chatbots>

CTA:

Create Chatbot With AI

One-Minute Builder

</app/chatbots/create>

Ask only:

What does your business do?

Website URL

What should the chatbot achieve?

[Generate My Chatbot]

AI automatically creates:

- greeting
- qualification
- FAQs
- product explanations
- pricing
- objection handling
- demo booking
- lead scoring
- human escalation
- follow-ups
- closing

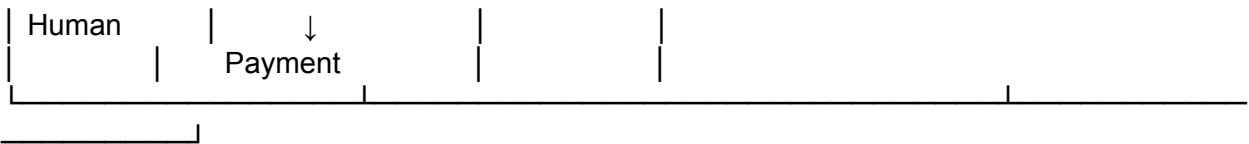

Routes:

Screen	URL
Chatbots	/app/chatbots
Create Chatbot	/app/chatbots/create
Create with AI	/app/chatbots/create/ai
Industry Templates	/app/chatbots/templates
Website Scanner	/app/chatbots/create/website
Document Import	/app/chatbots/create/documents
AI Generated Flow	/app/chatbots/create/generated
Chatbot Details	/app/chatbots/:chatbotId
Visual Builder	/app/chatbots/:chatbotId/builder
Knowledge	/app/chatbots/:chatbotId/knowledge
Personality	/app/chatbots/:chatbotId/personality

Qualification	/app/chatbots/:chatbotId/qualification
Sales Rules	/app/chatbots/:chatbotId/sales-rules
Escalation	/app/chatbots/:chatbotId/escalation
Channels	/app/chatbots/:chatbotId/channels
Testing	/app/chatbots/:chatbotId/test
Simulator	/app/chatbots/:chatbotId/simulator
Analytics	/app/chatbots/:chatbotId/analytics
Versions	/app/chatbots/:chatbotId/versions
Publish	/app/chatbots/:chatbotId/publish

S. VISUAL CHATBOT BUILDER DESIGN

Chatbot: Sales Assistant				Test Bot	Save	Publish
BLOCKS	VISUAL CANVAS		SETTINGS			
Greeting	Greeting		Prompt	Channel		
Ask Question	↓		Variables			
AI Response	Qualify		Rules			
Condition	↓		Timeout			
CRM Action	Pricing					
Payment						

Also allow:

Describe what you want this bot to do.

AI modifies the visual workflow automatically.

T. AI AGENTS

Screen	URL
AI Agents	/app/agents
Agent Marketplace	/app/agents/marketplace
Create Agent	/app/agents/create
Lead Qualification Agent	/app/agents/qualification
Product Agent	/app/agents/product-expert
Sales Agent	/app/agents/sales
Follow-up Agent	/app/agents/follow-up
Objection Agent	/app/agents/objection
Negotiation Agent	/app/agents/negotiation
Closing Agent	/app/agents/closing
Appointment Agent	/app/agents/appointment
Payment Agent	/app/agents/payment
Reactivation Agent	/app/agents/reactivation
Revenue Manager	/app/agents/revenue-manage r

Campaign Agent	<code>/app/agents/campaign-manager</code>

AR. PLATFORM SUPER ADMIN

Use:

</platform>

This is your company's master control.

Platform Dashboard

</platform/dashboard>

KPIs:

- Total Tenants
- Active Tenants
- MRR
- ARR
- Messages
- AI Usage
- WhatsApp Accounts
- RCS Usage
- SMS Usage
- Gross Margin
- Failed Jobs
- Provider Health

Routes:

Screen	URL

AS. EMERGENCY CONTROL SCREEN

</platform/emergency>

This screen should require:

MFA + Super Admin confirmation

Controls:

PAUSE ALL MARKETING

PAUSE WHATSAPP OUTBOUND

PAUSE RCS OUTBOUND

PAUSE SMS OUTBOUND

PAUSE AI AUTONOMOUS ACTIONS

DISABLE PROVIDER

STOP TENANT

STOP RESELLER

Inbound messages should remain operational wherever possible.

AT. SFW ADD-ON SITEMAP

Inside SFW:

/addons/revenue-ai

or native route:

/app/ai-sales

Recommended screens:

Screen	URL
AI Revenue Dashboard	/app/ai-sales
AI Inbox	/app/ai-sales/inbox
Campaigns	/app/ai-sales/campaigns

Create Campaign	/app/ai-sales/campaigns/create
WhatsApp	/app/ai-sales/whatsapp
Chatbots	/app/ai-sales/chatbots
AI Agents	/app/ai-sales/agents
Automations	/app/ai-sales/automations
Hot Leads	/app/ai-sales/hot-leads
AI Follow-ups	/app/ai-sales/follow-ups
Revenue Targets	/app/ai-sales/targets
AI Recommendations	/app/ai-sales/recommendations
Analytics	/app/ai-sales/analytics
Setup	/app/ai-sales/setup

SFW should continue owning:

Lead
Executive
Telecaller
Visit
Territory
Attendance

Revenue AI owns:

AI conversation
Campaign
Chatbot
Automation
Intent
Scoring
Next best action
Marketing automation

They synchronize through APIs/events.

AU. UNIVERSAL CREATE MENU

Top-right:

+ Create

Options:

- Contact
- Lead
- Campaign
- Audience
- Chatbot
- AI Agent
- Automation
- Appointment
- Quotation
- Payment Link
- Template
- Landing Page
- QR Code
- Task

This improves usability significantly.

AV. GLOBAL SEARCH

Search:

- Contacts
- Companies
- Campaigns
- Messages
- Deals
- Templates
- Chatbots

Automations
Payments

Shortcut:

Ctrl/Cmd + K

AW. GLOBAL NOTIFICATION CENTER

</app/notifications>

Categories:

Hot Lead
Customer Reply
Payment
Demo
Template Approved
Template Rejected
Campaign Warning
AI Approval
Target Risk
Integration Failure
Wallet Low
System Alert

AX. MOBILE RESPONSIVE APPLICATION

The primary system should remain responsive.

Bottom menu:

Home
Inbox
Leads
Tasks
More

Important mobile screens:

/app/mobile/home
/app/mobile/inbox
/app/mobile/leads
/app/mobile/tasks
/app/mobile/notifications

Do not attempt to put complex workflow builders on small mobile screens.

Allow:

View / Approve / Pause / Respond

Complex automation editing remains desktop-first.

AY. PRIMARY SIDEBAR

Recommended final tenant sidebar:

COMMAND CENTER

Dashboard
AI Copilot

CUSTOMERS

Inbox

AZ. MOST IMPORTANT SCREEN: AUTONOMOUS REVENUE COMMAND CENTER

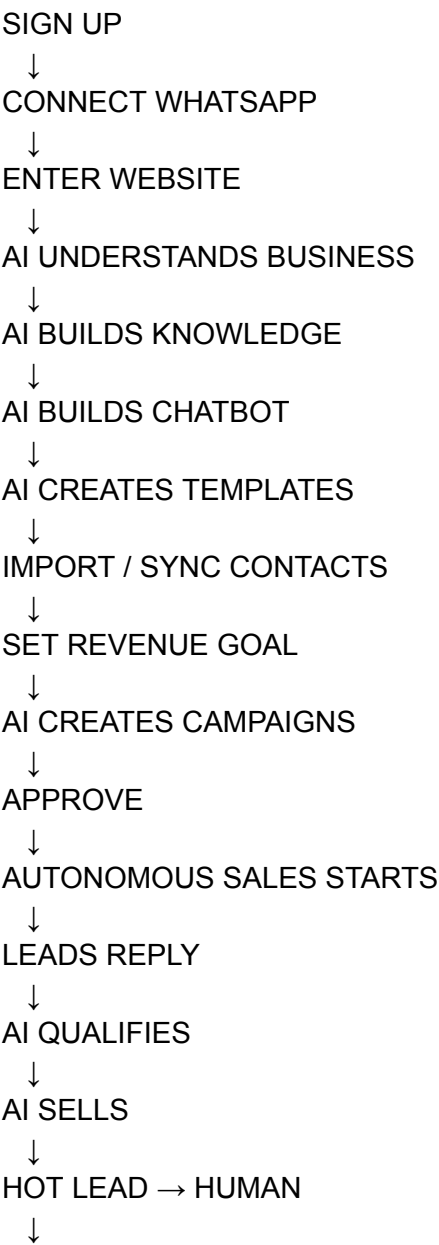

I would make `/app/dashboard` visually like this:

Good Morning, Rahul		Autonomous Mode ● ON		+ Create	
TARGET	ACHIEVED	FORECAST	GAP	AI GENERATED	
₹10L	₹7.8L	₹10.9L	₹2.2L	₹4.3L	
AI REVENUE MANAGER					
"You are currently 8% behind your 110% stretch target. I found ₹1.4L recoverable pipeline from 23 hot opportunities."					
[Execute AI Plan]		[Review Actions]			
LIVE SALES FUNNEL					
TODAY					
Leads	1,284	Hot Leads	23		
↓		Demos	9		
Qualified	468	Payment Pending	11		
↓		Follow-ups	42		
Demo	180	Human Takeovers	6		
↓					
Payment	64				
↓					
Won	48				
LIVE CAMPAIGN PERFORMANCE					

Campaign	Channel	Sent	Leads	Sales	Revenue	ROAS
Dentist	WhatsApp	8,200	384	42	₹4.2L	11x
Salon	RCS	4,100	112	15	₹1.5L	7x

BA. THE CORE CUSTOMER EXPERIENCE

The application should ultimately feel this simple:

DEMO

PAYMENT

CUSTOMER

AI LEARNS

NEXT CAMPAIGN IMPROVES

That simplicity should remain the **product design benchmark**, even though the backend is sophisticated.

Recommended build priority

For fastest commercial launch, developers should implement in this sequence:

Foundation & tenancy → onboarding → WhatsApp connection → contacts/consent → inbox → template studio → chatbot builder → campaigns → automation engine → AI sales agents → lead scoring → pipeline → payments → targets/revenue dashboard → analytics → SFW integration → RCS/SMS → reseller → marketing autopilot → advanced optimization.

This sitemap should be treated as the **canonical route architecture** so frontend, backend, QA, Flutter/web teams, DevOps and product management all use identical entity names and URLs.
